House Bills

[HB 2131 state agencies; citizen portal; access](#)

Requires each state agency that collects personal information from any person to establish a citizen portal that is a secure online website and that allows a person to access the person’s personal information and to correct any errors in the information.

[Fiscal Note](#)

The JLBC Staff anticipates the bill to have a significant cost to the state as agencies implement Information Technology (IT) improvements to meet the bill’s requirements. There is no practical method to estimate that cost in a timely fashion. The Arizona Department of Administration expects the bill to have accompanying development and ongoing costs, but did not provide a specific fiscal impact.

[Adopted Senate Government Committee Amendment:](#)

- Requires each state agency that collects personal information to establish a citizen portal beginning January 1, 2024, rather than on the general effective date.
- Makes the citizen portal subject to legislative appropriation.
- Requires each state agency that collects personal information from a person to allow the person to access the information collected by the agency, to correct any error in the information and to remove any of the person’s financial information.
- Requires that a citizen portal allow a person to delete any of the person’s financial information.
- Requires, beginning January 1, 2024 and subject to legislative appropriation, each state agency that collects personal information and does not maintain a public website to establish a manual citizen portal.
- Requires, by January 1, 2023, affected state agencies to: a) conduct a cost-estimate analysis on establishing and maintaining a citizen portal; b) submit the cost-estimate analysis to the Legislature; and c) submit a request for a legislative appropriation to cover the cost of establishing and maintaining a citizen portal.
- Defines financial information and personal information.
